ACM-197, ACM-197C
Skimmer Cover Plate with Ultra Bright LED Light

**TYPE OF INSTALLATION:**

A. **FOR INSTALLATION ON SKIMMER WITH PRE-DRILLED HOLE**

B. **FOR INSTALLATION ON SKIMMER WITHOUT PRE-DRILLED HOLE**

C. **INSTRUCTIONS FOR DRILLING HOLE INTO SKIMMER WITHOUT PRE-DRILLED HOLE**

**WARNING**

- Risk of electrical shock, if instructions are not followed. Connect only to a grounded GFCI outlet that is a minimum of 10 feet (3 m) away from the pool. **DO NOT USE EXTENSION CORDS.**
- Do not let children use this device unsupervised.
- For use on permanent above-ground pools only.
- Do not use the light if the lens, transformer or cord is damaged.

**WINTER STORAGE:** Freezing weather may damage light fixture. Disconnect light and remove from the pool. Store in dry space at room temperature.

**NOTE:** Operating and Pairing Remote with Pool Lights Instructions included with ACM-197C only.

**INSTRUCTIONS FOR DRILLING HOLE INTO SKIMMER WITHOUT PRE-DRILLED HOLE**

**STEP 1** Cut out template along dotted line.

**STEP 2** Line template up with the top edge of skimmer. The edge of the template **MUST** be flush with the side edge of the skimmer.

**STEP 3** Tape template securely in place.

**STEP 4** Making sure that center point is aligned, carefully drill hole using a 20 mm hole saw.

**TEMPLATE** (This side up)

- 7/8" (2,223 cm)
- 5/8" (1,588 cm)
- 5-1/8" (13,018 cm)
- 3-1/4" (8,255 cm)

**FOR INSTALLATION ON SKIMMER WITH PRE-DRILLED HOLE**

**FOR INSTALLATION ON SKIMMER WITHOUT PRE-DRILLED HOLE**

**INSTRUCTIONS FOR DRILLING HOLE INTO SKIMMER WITHOUT PRE-DRILLED HOLE**

**TOOLS NEEDED**

**A**

**B**

**C**

**Note:** Operating and Pairing Remote with Pool Lights Instructions included with ACM-197C only.
A FOR INSTALLATION ON SKIMMER WITH PRE-DRILLED HOLE

STEP 1 Thread electrical cord through the pre-drilled hole in the skimmer as shown leaving just enough cord to maneuver the cover plate.

STEP 2 Slide factory installed grommet down the cord and push through the hole in the skimmer so that the grommet plugs up the hole from both sides. NOTE: Grommet is not watertight.

STEP 3 Snap cover plate in place.

B FOR INSTALLATION ON SKIMMER WITHOUT PRE-DRILLED HOLE

STEP 1 On the backside of the cover plate remove the screw holding the electrical cord in place.

STEP 2 With the cord well out of the way, use an exacto knife to carefully cut out the channel in the upper lip of the cover plate. Pass the cord through the channel.

STEP 3 Snap cover plate in place.

Step 4 FOR BOTH TYPES OF INSTALLATION:

Make sure the electrical cord and transformer are out of the water. Slide plastic O-ring onto transformer plug. Insert pins into transformer outlet and secure with cap.

STEP 5 The transformer should be plugged into a GFCI outlet.
